

11 LIMITED SERVICE MEN

LEAVE FOR DISTANT POINTS OF
THE COMPASS FOR WAR
WORK.

Yesterday Hopkinsville and Christian county saw 31 more of young men leave here and go to war. They went in three squads, or parties. Twenty colored men went to Camp Taylor. Three other colored men entrained from other states and joined these at the camp, making 23 in all.

In answer to the government's call for limited service men for service in the United States, five were selected for firemen and guards and left yesterday morning for Syracuse, N. Y. The ones going in this party were Jas. H. Heister, Thos. Fowler Coombs, Hansel Cardin, John W. Venable and Walter Hamby.

Last night six more young men left for Vancouver Barracks, State of Washington, in the extreme north-western corner of the United States. These six are John Orr Metcalfe, Dennis Elliott, Eury Guy Hicks, Alfred K. Johnson, Frank B. Hulce and Neil L. Garrett.

These eleven are all class one men but because of some physical defect, underweight, etc., could not qualify for full military service and were placed in the limited service class. These are the first calls that have come to this county for men in this class but the calls were readily and enthusiastically filled. The six going to Vancouver Barracks will be assigned to duty in the lumber camps and yards preparing materials for governmental work.

BRITISH DOWN NINETY-ONE

HUN PLANES IN WEEK.

London, July 28.—Throughout the week the aerial fighting on the western battle front has been a violent character. From a trustworthy source it is learned that during the week the British destroyed 76 enemy machines and drove down 15 out of control. Fifty-one British machines are missing.

One hundred and four tons of bombs were dropped during the week. The week's record for long distance bombing attacks was the heaviest of the war. Twenty-five separate raids were made into German territory. Thionville was bombed four times and the famous poison gas factory and munitions works at Mannheim, twice. The blast furnaces at Burbach and the railway and factories at Offenbach also came in for shelling twice.

Aerial attacks on German naval and submarine bases on the Belgian coast continued day and night. Upwards of 20 tons of explosives were dropped on Zeebrugge and Ostend.

On the Italian front the air fighting resulted in the downing of 19 enemy machines without the loss of a single British machine.

BAND CONCERT.

Given by the Third Regimental Band of Kentucky, which you may never have had the privilege of hearing again. This concert will be given for the benefit of the Salvation Army. They were the first to offer their services to the government for the salvation of the boys and to take care of the sick and wounded at the front. In eighteen days after England declared war on Germany, the Salvation Army was on the ground.

The local corps will have charge of the gathering and will have one of the greatest speakers in the State. The band will endeavor to amuse you with patriotic music and also with tunes familiar to the boys in the trenches. Tell your friends and neighbors as we will be awfully disappointed if we do not have a large crowd. If your mothers, girls or hearts in the army, I am sure you will be pleased to hear what we are doing for them. I beg of you, with our whole souls and hearts, to come to this meeting. It will begin at 4 o'clock and will last about one hour and a half.

This concert will be given Sunday afternoon at the Tabernacle.

TAX COMMISSION TURNS DEAF EAR TO TOBACCO MEN

ALL WEED IN STATE TO BE ASSESSED AT 85 PER CENT
OF ITS VALUE.

Tobacco buyers and warehousemen of the state, especially those of Owensboro and Lexington, are protesting vigorously against the manner in which the county tax commissioners, at the direction of the state tax commission, are assessing tobacco, which was purchased last year and is now being held in their warehouses, either in hogsheads or loose, and many of the warehousemen and larger buyers are threatening to store their purchases in the future in other states, unless some consideration is given their claims for the assessment of their property by the taxing authorities.

Heretofore the owners and holders of tobacco in storage in the state have been assessing only small quantities of tobacco on hand, but last year considerable increase was made at the instigation of the tax commission, and in Daviess county this character of property was valued at something like \$3,500,000, for taxation purposes. The assessor assessed it for only seventy per cent of its value, but even then the tobaccoists were aroused to antagonism against the method of assessing their property although it was thought that large quantities of the weed was never assessed for taxes.

Tax Commission Acts.

Several weeks ago, the state tax commission sent letters to the county tax commissioners directing them to assess all tobacco held in the state, and Clarence Westerfield, the county tax commissioner for Daviess county, made a visit to each of the warehouses in Daviess county and found something like \$10,000,000 worth of the weed on storage, and as assessing it at eighty-five per cent of its actual value, as he is endeavoring to assess all tobacco at eighty-five per cent of its value, warehousemen of Louisville and Lexington sent delegations to Frankfort to appear before the tax commission, and tobacco men of Owensboro sent several protests to the commission, but the commission directed that this character of property to be assessed on the same basis as all other classes of property paid local rates of taxation.

Keeping Close Tab.

Gates Young, assistant to the tax commission, who has supervision of the field agents for the commission, stated yesterday that the county tax commissioners should find something like eighty million dollars worth of tobacco in the state, and that in his investigations he had found that only about twenty per cent of this character of property had been assessed for taxation heretofore, and that only at about ten per cent of its value. In Fayette county he found that last year tobacco was assessed at \$50 a hogshead in many cases, when its real value was near \$300 per hogshead. Mr. Young stated that he was keeping a close tabulation on the assessment of tobacco in every county in the state and that the county tax commissioners were going to assess tobacco at eighty-five per cent of its actual value, and that the assessment would be made uniformly regardless to whom the weed belonged.—Owensboro Messenger.
